

STO

Different jobs calls for different seating solutions. The right combination of seat-type, base, castor-type and working height will turn a stool into the perfect working tool you in order for you to fulfill the job you have at hand as comfortable as possible.

On the following pages we show a variety of different known solutions and combinations; however the models can be combined as wanted.

Bases

- Octopus:** Practical and stable with a diameter of only 440 mm, made of shock-proof nylon.
- Alu50:** Elegant and easy-to-clean aluminium base with a diameter of 500 mm.
- Trumpet:** Space-saving with a diameter of only 400 mm, giving more space to feet and legs - made of shock-proof nylon.
- 400P:** Made of shock-proof plastic with a diameter of 400 mm. The castors are mounted directly into the base, which also can be used for storage - 2 tool boxes included.
- 400S:** Made of steel with a diameter of 400 mm.
- 400RS:** Made of steel with a diameter of 400 mm with footring.
- 480RS:** Made of steel with a diameter of 480 mm with footring.
- Stella:** Stable steel base with a diameter of 480 mm with footring.
- Spider:** Stable steel base with a diameter of 430 mm. with footring.

Seat types

- Polyurethan:** Practical, easy to clean, with good seating comfort and very tough even in harsh environments. Polyurethane furthermore has the feature of being sturdy and able to withstand several types of fluids and chemicals.
- Plastic:** Sturdy and very well suited for e.g. welding jobs or in other extreme surroundings.
- Upholstered:** Pleasantly soft and with good seating comfort.
- Wood:** Sturdy, elegant and easy to clean.

Accessories and castors

See specified accessories for each model group.

MICRO

MICRO

The Micro-stool is our absolute allrounder, highly appreciated among kindergarten teachers, who often have to work at eye-level with the children. The chair is light in weight and easy to move. The seat is pleasantly soft and the perfect place to sit - either for the short moment, in order to tie the kiddies' shoelaces, or for longer, when it is time for story-reading.

The chair is available in several fabrics and colours. For the use in institutions, we recommend to use our imitation leather, which is very durable and easy to clean.
